

PRODUCT SAFETY DATA SHEET

1. 1. Product Name:

HEADLAND POLO

A herbicide for use in agriculture and horticulture

Marketed by:

Headland Agrochemicals Ltd.

Contact Points:

In all cases of emergency and for further advice, contact

Headland Agrochemicals Ltd

Norfolk House

Great Chesterford Court

Great Chesterford

Essex CB10 1PF

Tel: +44(0)1799 530146

Fax: +44(0)1799 530229

E-Mail: enquiry@headlandgroup.com

2. 2. Composition:

Ingredient	CAS No	Conc'n	Class'n	Risk Phrases
2,4-D as dimethyl-amine salt	2008-39-1	36.1% w/w	Xn	R20/21/22
MCPA as Dimethyl-Amine salt	2039-46-6	32.1% w/w	Xn	R20/21/22
4-chloro-2-methylphenol	1570-64-5	<0.2% w/w	T,C	R23,R35,R50

3. Hazards:

Harmful by inhalation, in contact with skin and if swallowed.

Risk of serious damage to eyes

EU Classification Xn (Harmful)

4. First Aid Measures:

Eyes: Irrigate gently with clean water for at least 15 minutes. Seek medical advice if any irritation or redness persists.

Skin: Remove contaminated clothing. Wash the area immediately with clean gently flowing water for 10 minutes, then seek medical advice without delay. Repeat the skin decontamination process until all signs of chemical have gone.

Ingestion: Check breathing and heartbeat and give cardiac massage/artificial respiration if necessary.

If conscious, give plenty of water to drink.

Keep patient at rest and obtain medical attention/send to hospital immediately. Do not induce vomiting.

Inhalation: Remove from exposure and provide maximum ventilation

If there is coughing or difficulty breathing, keep at rest in a position of maximum comfort

5. 5. Fire Fighting Measures

Headland Polo will not burn. If involved in a fire, decomposition fumes and vapours will be toxic. Fire fighters should wear breathing apparatus. Use dry chemical, foam, water spray, carbon dioxide, sand or earth. Prevent entry of the product or contaminated water into watercourses ditches or drains by bunding the area with sand or earth if possible.

6. Accidental Release (Spillage)

Wear suitable protective clothing (see Section 8). Remove contaminated clothing immediately. Do not eat drink or smoke. Keep bystanders away. Recover gross spillage by pumping using an explosion-proof pump or absorb small quantities onto a suitable absorbent (sand or earth). Transfer to a labelled container for removal to a safe place for disposal as hazardous waste. Flush the area with plenty of water when all the spillage has been removed. Prevent the spillage from entering watercourses sewers or drains. Inform the proper authorities if gross contamination of waterways, sewers or drains is threatened or occurs.

7. Storage and Handling

Keep in original container, tightly closed.
Keep cool and dry in a suitable agricultural chemical store under lock and key
Keep away from food, drink and animal feedingstuffs and out of reach of children.
Avoid contact with skin, eyes or clothing. Avoid breathing vapours.

8. Personal Protection

Wear coveralls, suitable protective clothing, suitable protective gloves and face-shield to BS2092 when handling the concentrated product or contaminated surfaces and dealing with spillages. Wear suitable respiratory equipment in cases of insufficient ventilation.
Decontaminate all personal protective equipment after use.

Occupational Exposure Limits:

2,4-D dma salt	None assigned. Calculated OEL based on similar material: Long-term = 12 mg/m ³ (8-hour ref. period) Short-term = 24 mg/m ³ (15 minute ref. period)
MCPA dma salt	None assigned. Calculated OEL based on similar material: Long-term = 11 mg/m ³ (8-hour ref. period) Short-term = 22 mg/m ³ (15 minute ref. period)
4-chloro-2-methyl phenol	None assigned

9. Physical and Chemical Properties

Appearance: a clear light brown liquid
Odour: characteristic fishy amine odour

PH: 7.5 – 9.5
Solubility: Fully miscible with water
Specific Gravity: 1.185 – 1.215

10. 10. Stability and Reactivity

Stability: Very stable. Stores for at least 2 years in original containers in normal agricultural chemical storage conditions. Avoid excessive heat.
Reactivity: Avoid contact with strong acids, bases and oxidising agents.
Decomposition: may generate carbon and nitrogen oxides and hydrogen Chloride.

11. 11. Toxicological Information

Acute Toxicity:

Acute oral LD50: 699-1160 mg/mg.bw (rat)
Acute dermal LD50: >2000 mg/kg.bw (rabbit)
Inhalation LC50: No data
Irritancy: Risk of serious damage to eyes

12. Environmental Protection

Harmful to fish or other aquatic life and dangerous to higher aquatic plants.
Do not contaminate surface waters or ditches with chemical or used container.
LC50 (96 hour): Rainbow trout 469-748 mg/litre
Bluegill sunfish 1.79 – 6.36 mg/litre

Behaviour in soils: Fairly mobile but rapidly degraded in soils (t50= <24 days under aerobic conditions). Low bioaccumulation potential

13. Disposal of Unwanted Product and Used Containers

Consult the local authorities before disposing of unwanted chemical. It is recommended that the chemical is mixed with a combustible solvent and burned in a chemical incinerator equipped with an afterburner and scrubber. Triple-rinse containers and dispose of by burning or as permitted by local authorities. Do not re-use containers for any purpose.

14. 14. Transport Information

Road Transport: Environmentally hazardous liquid
UN Number: 3082
Proper Shipping Name: Environmentally hazardous substances, liquid, N.O.S (Contains 2,4-D 360 gm/litre)
UN Class: 9
CPL Packing Group: III
ADR/RID Description: Marine pollutant
IMDG Class: 9

15. 15. Regulatory Information

Hazard Symbol: Harmful Xn
Risk Phrase: R20 Harmful by inhalation
R21 Harmful in contact with skin
R22 Harmful if swallowed
R41 Risk of serious damage to eyes

Safety Phrases

S26

In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

S36/37/39

Wear suitable protective clothing, gloves and eye/face protection

16. Other Information

The above information is intended to give health and safety guidance on the storage and transport of the substance or product to which it relates. It is not intended to apply to the use of the product, for which purpose the product label and any appropriate technical usage literature available should be consulted and any relevant licences, consents or approvals complied with. The requirements or recommendations of any relevant site or working procedure, system or policy in force or arising from any risk assessment involving the substance or product should take precedence over any of the guidance contained in this safety data sheet where there is a difference in the information given. The information provided in this safety data sheet is accurate to the best of the issuer's available knowledge at the date of publication, and will be updated as and when appropriate. No liability will be accepted for any loss or damage resulting from any failure to take account of information or advice contained in this safety data sheet.

Headland Polo is approved by MAFF Pesticides Safety Directorate for use as a herbicide.

Registration No. MAFF 10283. Registration held by A.H.Marks and Co. Ltd.
